Red series:

Style: 1) flat 2) double ribbed

3. Common Size

2mm X 150mm X 50m; 2mm X 200mm X 50m; 2mm X 300mm X 50m;
 3mm X 200mm X 50m; 3mm X 300mm X 50m; 4mm X 400mm X 50m.

Note: 1. We can also make products with **other sizes and colors** according to customers' needs.

2. Manufacturing min. Tolerance

Style	Flat	Double ribbed
Thickness (mm)	- 0.2	- 0.3
Width (mm)	- 0.2	- 0.2
Length (m)	+/- 1	+/- 1

1. Brief Introduction

Polar PVC strip curtain remain highly soft even at 45 Celsius below zero, allowing easy passing of people, vehicles and goods and effectively preventing loss of cold air. Polar PVC sheet is a good choice for save power because they do not contain electric drive. Polar door curtain do not have action component and do not produce noise during service. Cool strip has been designed from market experience and has been proved in independent tests to up to 50% of energy costs, while helping retail chill cabinets meet statutory temperature controls.

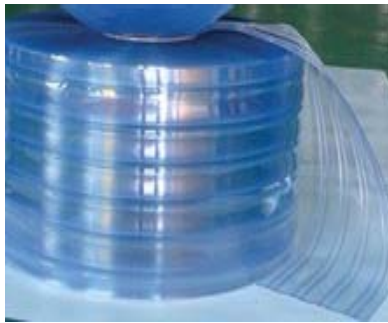

Temperature resistance: -45°C - 50°C.

Applications:

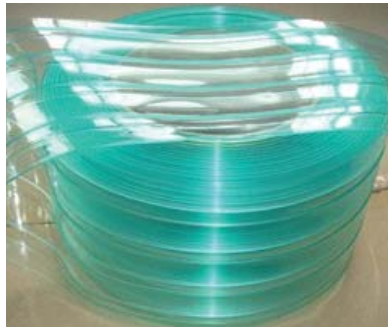

Polar grade PVC strip curtains are an option for Cold storage, Refrigerated doorways, Deli-Counters, Chiller Cabinets, Cold rooms and most retail refrigeration situations.

1. Brief Introduction

Transparent PVC strip curtains are designed to save energy, protect workers, and reduce noise in warehouse and factory applications. Specifically designed for doors that enclose areas where welding is being performed. Its tinted color helps reduce the incidental effects of bright, ultra violet light from welding arcs. Sparks bounce off the thick material, yet it is transparent enough to allow supervisors and others to view the welding area.

Applications:

Welding PVC strip curtain designed to protect individuals from ultraviolet radiation, sparks, and spatter. Great for traffic areas where need to be accessed regularly but still require protection. Appropriate eye protection must still be worn. It will help protects workers from Welding area, Flash burns and UV light.

1. Brief Introduction

Wide width soft boards, a high-quality plastic-rubber foam composite material, clear and transparent, with smooth surface and uniform color, free from cracks or bubbles. It features high withstand capacity to heat and coldness, high resistance to strong acids and alkali, hard pressure, impact, stretch, ageing and has good antistatic property, high transparency and life service life.

Applications:

PVC sheet finds wide applications in electronic, chemical, pharmaceutical, food and garment industries and can be used as workbench top, machine surface and desktop.

2. Common Color and Style

The main type for table use and workshop use are flat surface, you can cut to any size as you're needed, we have the super width up to 1800mm, which meet almost all the applications.

3. Size

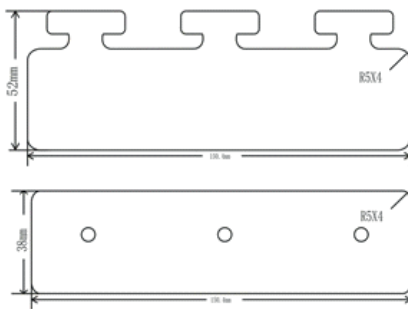

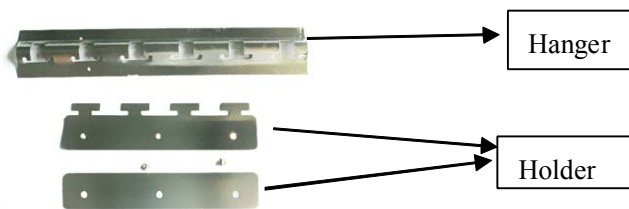

Thickness ---- from 1mm to 6mm

Width ---- from 500mm to 1800mm

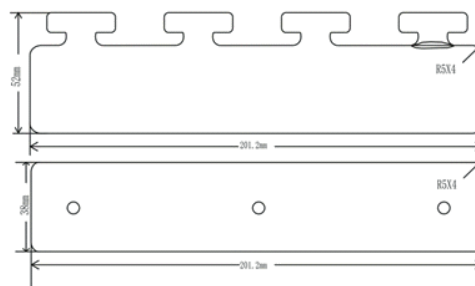

Length --- from 10m to 50m

1. Brief Introduction

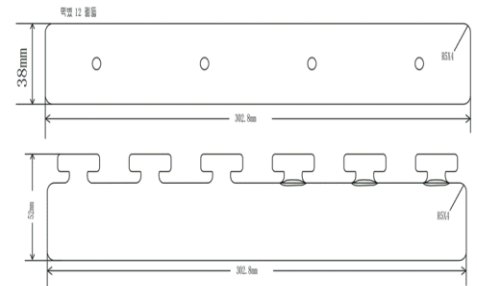

This type Suspension hardware is most popular type of hanging system. The stainless steel Hanging Rails are fixed onto the underside or facing side of the door frame / beam support. We recommend this system for light industrial applications where there is manual pallet movement & occasional fork lift trucks traffic etc.

Holders for

How many strip curtain you can butted to the hangers?

Width of PVC strip curtain mm	Length of hangers mm	Number of strips PCS
200	900	6
	1050	7
	1200	8
300	1500	10
	1000	4
	1500	6
400	1050	3
	1400	4

overview of Over lop

50mm is just the standard size, you can enlarge it according to your usage.

2. How to install the PVC strip curtain?

1). Cutting

Measure the size of door and cut the PVC strip curtain accordingly. Make sure the angle is 90 degree; Be careful with the cutter

2). Punch hole

a) Pushing holes in one side of PVC strip curtain

b) 200mm width door curtain need 3 holes

c) 300mm width door curtain need 4 holes

3). Install holders

a. Butt holders to the PVC strip with Screw.

b. Make sure the angle between strip and holders is 90 degree

4). Install hangers

a. Choice the best tool to punch hole according to the material of wall

b. If the hangers need to cut for special use, make sure you have remove the flash before installation.

5). Install holders to hangers

6). Butt odd holders firstly, and then even holders.

3. What's our value added services for this products?

◆Special package: if your quantity is bigger and you are worried about the safe in the transport, we can book wood box for you (Non-fumigation boxes and pallets)

◆Special Length: we have full set cutting machines; we can make any length according to your requirements. Tell us the width of your door, we will show the best one set choice for you.
